

The Design Build Institute of America Upstate NY Chapter

How would better, faster, cheaper, and more accurate sound to your customer?

Let us show you how BIM Modeling, BIM Management & Laser Scanning can do all that!

What is BIM?

BIM (Building Information Modeling) is an intelligent 3D model-based process that gives architecture, engineering, and construction (AEC) professionals the insight and tools to more efficiently plan, design, construct, and manage buildings and infrastructure.

What is Laser Scanning?

Within the field of 3D object scanning, laser scanning (also known as lidar) combines controlled steering of laser beams with a laser rangefinder. By taking a distance measurement at every direction the scanner rapidly captures the surface shape of objects, buildings and landscapes. Construction of a full 3D model involves combining multiple surface models obtained from different viewing angles, or the admixing of other known constraints.

Hear from Kris Kimmel as he shows you how KBKCD:

- Uses BIM Modeling to provide customers with more accurate drawings
- Extracts information from the BIM model to provide added value to their customers.
- Uses the BIM Management role to increase a projects overall efficiency.
- Uses Laser Scanning to improve the accuracy of their BIM Modeling, Management, and documentation of as-built conditions.

Event Details:

Thursday, April 24, 2018

**Buta Pub @ The German House
315 Gregory Street, Rochester**

7:00 AM: Registration

7:30 AM: Breakfast

8:00 AM: Presentation

\$35 per person

To register, contact Kim Gaylord at kim@robex.com or 585-586-5460.

Kris Kimmel Biography

Kris is a mechanical drafting and coordination expert. As the third generation in the sheet metal industry, he began working in his fathers' sheet metal shop when he was twelve years old. In July of 2004 he founded Kris B. Kimmel Construction Drafting, Inc. focusing his attention on drafting and coordination for all the MEP trades. He launched his business based on a thorough knowledge of the sheet metal and HVAC industry. His business has flourished because of his attention to detail, his commitment to learning and understanding the nuances of all building trades, and embracing new technology to build with more accuracy and confidence. To date, Kris has managed the coordination for construction projects totaling on over \$1.6 Billion dollars.

Registration Information:

Quantity:_____

Cost:_____

Attendees: _____

Company:_____

Billing Address:_____

Contact Email / Phone:_____

To register, contact:
DBIA
c/o Kim Gaylord
180 Linden Oaks, Suite 100
Rochester, NY 14625
